

Power-Hawk² Rack Monitoring Unit

The Power-Hawk² is a compact device used to monitor and control up to **2 power strips** within the rack, plus **2 environmental** input sensors, which can be a combination of temperature, humidity or other digital sensors.

The Power-Hawk² answers the remote monitoring demands of data centre and IT managers with a focus on SNMP network integration and localised monitoring support. Combine this with the Enterprise Device Manager for maximum SNMP monitoring & control via HTTPS web interface and up to 5 user logins.

Key Features

- **2x PDU monitoring ports**
Monitor total RMS Amps, RMS Volts and KWhr for each PDU. Option to control individual socket outlets with password protection, subject to suitable PDU.
- **2x analogue/digital inputs**
Provides inputs for temperature, humidity & other digital sources (e.g. door contact, UPS, smoke detector).
- **Support up to 5 network management stations & 10 SNMP trap receivers**
- **Define & set thresholds to generate alarms**
- **Individual outlet control with password protection**
Subject to availability on PDU (6 x 24 outlets).
- **Optional remote LCD display unit**
External cabinet / rack monitoring of the key parameters, and displays network configuration. Can be sited up to 1.5m away from base unit.
- **Java SNMP agent viewer**
Monitor and control individual units with this mini-NMS type viewer.
- **Integration into existing SNMP-based NMS**
Supports SNMP, Telnet and WEB.

Technical Information

Dimensions	150mm wide x 80mm deep x 27mm high
LED indicators	DC Power ON Status Network Traffic 2 Alarm indicators RS232
PDU ports	2 x RJ45
Sensor ports	2 x RJ45
Power input	1 x jack plug +12v DC
LAN port	10/100 BaseT Ethernet
Operating range	0 ~ 70°C
Operating humidity	30 ~ 85%
